AAS-MSN NURSING

Concurrent Enrollment Pathway

(NCEP)

If you're a prospective nurse who brings a bachelor's degree in another field to your pursuit of a nursing career, the MaricopaNursing-Grand Canyon University Associate in Applied Science in Nursing to Master of Science in Nursing Concurrent Enrollment Pathway (AAS-MSN NCEP) could be for you.

Building on the academic foundation of your previous degree, the AAS-MSN NCEP allows you to take seven core nursing courses from the Bachelor of Science in Nursing (BSN) program at GCU concurrently with your AAS courses at MaricopaNursing. Once you complete your AAS, pass the NCLEX and complete BSN course requirements, including the practicum experience, you will move into the MSN portion of your pathway.

Why Choose This Path?

▶ **JUMPSTART YOUR NURSING CAREER:**

By concurrently enrolling in the AAS with MaricopaNursing and the GCU bridge to MSN courses, you'll learn hands-on nursing skills as well as meet the prerequisite requirements for entry into the MSN program of your choosing.

▶ **TAKE A STEP FORWARD, NOT SIDEWAYS:**

You've already earned a bachelor's degree, so advancing to the master's level is the efficient next step toward your career goals. This accelerated path to your MSN allows you to put your prior education and experience to work sooner.

▶ **SET YOURSELF APART FROM THE COMPETITION:**

NCEP courses will help you develop clinical reasoning, critical thinking and problem-solving skills — all highly valued in the marketplace. With these skills, you'll put yourself ahead of the 60 percent of other nurses who graduate with an associate degree or diploma in nursing.¹ Additionally, your commitment to earning your master's degree may give you an advantage, especially with hospitals that have or are seeking a Magnet status.

▶ **SPECIALIZE IN AN AREA OF INTEREST:**

GCU offers multiple emphasis options allowing you to specialize in your preferred area of interest. You may also choose to use the NCEP to move into the dual degree MBA/MSN Leadership. This is an accelerated pathway toward completion of the MSN. The required BSN courses are prerequisites that prepare students to begin the MSN track.

▶ **SAVE MONEY:**

You'll receive a significant tuition reduction on your MSN-bridge pathway courses while enrolled in the NCEP. As a MaricopaNursing graduate, you'll also be eligible for a discount on your MSN pathway at GCU.

Things You Should Know

1. You will need to apply for acceptance into the NCEP and provide documentation showing that you have met eligibility requirements. Participation in the NCEP is limited to a select number of applicants who have demonstrated completion of prerequisite coursework and have met eligibility requirements specific to the MaricopaNursing-GCU AAS-MSN NCEP.
2. If accepted into the NCEP, you will be enrolled in MaricopaNursing and GCU at the same time. You will be responsible for financial obligations to both schools.
3. Most GCU MSN-bridge courses are five weeks in length and delivered in a convenient online modality (clinical, practicum and immersion hours completed locally).
4. When you start your master's program, you may choose an emphasis in either Education, Health Informatics, Health Care Quality and Patient Safety, Leadership in Health Care Systems, Public Health or a dual degree MSN/MBA. See descriptions on page 7.
5. MaricopaNursing-GCU AAS-MSN graduates will be prepared with the expected professional knowledge and skills of a new graduate master's prepared nurse.
6. Students accepted into this pathway will have a previous bachelor's degree and will not receive a Bachelor of Science in Nursing (BSN) as part of this pathway.
7. Midpoint entry is available to students who are currently in the MaricopaNursing nursing program between blocks 2 and 3. Contact your GCU counselor for a midpoint entry application.
